

**SMART***desks*

## Classroom Computer Desks

DT Series places monitors or laptops on desktops or monitor arms.

### General Specifications:

- Top is 30mm MDF finished in high pressure laminate
- Base is 19mm melamine
- Edge banding 3mm PVC
- Floor leveling guides, steel, 1.25" (31.75mm) with 3/4" (19mm) adjustment
- J channel wire management on modesty panel
- Side access grommets, 80mm
- Melamine keyboard/mouse platforms, retractable, 26x8

### T-Rex™

#### Single Monitor Arm

Effortlessly adjust the angle, focal depth, and height of your flat-screen monitor for either seated or standing applications.

**28492 Grommet Mount**  
**28491 Clamp Mount (Shown)**

Unique pivot assembly fine tunes monitor angle and height with the push of a button. Swivel assembly allows flexibility to adjust the monitor for portrait or landscape views. Impressive 4" - 21" horizontal travel range. Accommodates all VESA-compliant monitors weighing up to 25 pounds. Available in both clamp and grommet-mount versions.

### T-Rex™

#### Double Monitor Arm

Mount two monitors with two T-Rex arms to one pole. Effortlessly adjust the angle, focal depth, and height of your flat-screen monitor for either seated or standing applications.

**28807 Grommet Mount**  
**28806 Clamp Mount (Shown)**

Allows centering of the screens in the work space, even if the grommet location is not centered. Works with all VESA-compliant monitors weighing up to 25 pounds. Available in both clamp and grommet-mount versions.

## Desktop Monitor Desks

DT Series desks are designed for desktop monitor placement. Desks come with desktop grommet for wire management; 26" x 8" keyboard/mouse tray with integrated mouse fence and wire management pass through; CPU bay. All desks have 1" x 3" J style wire management channel (12 amp rated), wire management

grommets on sides; top surface finished with high-pressure laminate, base finished in melamine, 3mm PVC edge trim. Desks come with 1.25" steel floor leveling glides with .75" adjustment. The size of the desk is the middle 6 digits of the item number (in inches): WxDxH.

# DT SERIES WORKSTATIONS

DESKTOP COMPUTER CONFIGURATION

Sometimes the best solution is the simplest.

If you are going to be changing or mixing a variety of monitor sizes and the desks are going to be pushed up against the walls around the room or clustered back-to-back, placing the monitor on the work surface may be the best option.

If line-of-sight is not an issue and the monitor is the only computer component on the desktop you can reduce the clutter of cables and equipment and leave space for taking notes and reading printed materials.

In the computer lab with shared terminals or for individual tutoring, the DT configuration provides the best visibility for multiple users and in the Internet lab where you want to monitor student computer activity closely, the DT series enables you to see every screen at once with the right furniture arrangement.

SMARTdesks has applied all of the same design principles used in our other desks to make DT Series Workstations just as comfortable, clutter-free and aesthetically pleasing.

Our product numbers have meaning:

**SDT-603630-CK9**

Prefix:	Dimensions:	Suffix:
Single	Width= 60"	C= Double CPU Capacity
Double or	Depth= 36"	T= Tower CPU Only
Triple	Height= 30"	K= Keyboard Pull Out
Desk		9= 19" Monitor
Top		1= 21" Monitor
